

**Lesson on Minorities in Math and Science
Poster Project**

Note to Teachers

Grade Level - 7th and 8th

Approximate time - 80 + minutes.

Skills practiced - reading for information and meaning. Appreciation for Math and Science, interpreting facts, writing and oral presentation skills.

NYS Standards covered -

Depends on contribution chosen by student.

Note: This is a great way to use the internet. You should consider having books on the history of math available to students as well. Encourage students to search the internet for other sites once they have chosen a mathematician or scientist.
